

Regulatory and Compliance Assistance for the Medical Aesthetics Industry

LILIS™, a service of Boston MedTech Advisors, provides accurate, timely and current regulatory and compliance information to providers of **laser and intense light services**.

Our team of professionals researches and monitors the regulatory environment in all 50 states, and offers services tailored to the specific needs of each provider, including:

- Reports providing all relevant state and federal regulations
- On-demand phone support
- Personalized services to research your specific regulatory questions

Areas covered in our reports:

- Delegation and supervision of light-based aesthetic procedures
- Training requirements for operators, managers and supervisors
- Facility-related requirements
- Ownership and management of clinics, medical spas and other providers operating laser and light therapy

Benefits offered by ordering LILIS reports and services include:

- Obtaining all pertinent regulations covering your operation with minimal investment in cost and time
- Supporting compliance
- Lowering financial, legal and operation exposures
- Accessing ongoing support and advisory services
- Ensuring familiarity with ever-changing regulations
